The following is an examiner's statement of reasons for allowance:

The art of record considered as a whole, alone or in combination, neither anticipates nor renders obvious an electric power tool, comprising: n power transmission keys each composed of an elastic body and provided between an output shaft having n V grooves and gear having n grooves, each of the power transmission keys having rectangular shape when viewed axially, the rectangular shape having two opposite longer sides and two opposite shorter sides so that one of the shorter sides receives a rotational force from the gear.

Further, the art of record considered as a whole, alone or in combination, neither anticipates nor renders obvious an electric power tool, comprising: n power transmission keys each composed of an elastic body, each of the power transmission keys having rectangular shape when viewed axially, each of the power transmission keys having one surface abutting against a side of a corresponding one of the n V-grooves, n separate members each composed of metal, wherein each of the power transmission keys and each of the separate members form a key

assembly so that each key assembly is provided between the output shaft and the gear, the rectangular shape has two opposite longer sides and two opposite shorter sides so that one of the shorter sides receives a rotational force via a corresponding one of the n separate members from the gear, and power transmission is performed by the output shaft, the key assembly and the gear in such manner that the output shaft contacts the n separate members during application of a large load.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
